Subject: Call for Applications for Two CEEPUS Short-Term Mobility Positions for International Students at the University of Novo mesto Faculty of Mechanical Engineering Academic Year 2026/2027

To whom it may concern,

University of Novo mesto The Faculty of Mechanical Engineering, within the framework of the CEEPUS (Central European Exchange Program for University Studies) programme, announces **two positions for short-term mobility of international students** during the academic year 2026/2027.

The mobility is organized within the CEEPUS network “Application of CAX Technologies in Smart Production as a Significant Basis for the Development of Industry 4.0 in Small and Medium-Sized Enterprises – Connection between Industry and Higher Education Institutions through Lifelong Learning.” The network brings together 22 universities from Central and South-Eastern Europe and promotes cooperation between higher education institutions and industry in the fields of mechanical engineering, digital manufacturing, CAD/CAM/CAE technologies, Industry 4.0, and lifelong learning. Special emphasis is placed on developing the competencies of future engineers, fostering knowledge exchange, strengthening research collaboration, and connecting students, researchers, and companies.

Duration of mobility:

- 2 months
- The mobility will take place during the academic year 2026/2027.
- The mobility is intended for students from partner higher education institutions participating in the above-mentioned CEEPUS network.

The mobility is intended for students who wish to:

- conduct research activities,

- prepare their Bachelor's, Master's, or Doctoral thesis,
- participate in projects at the Faculty of Mechanical Engineering,
- acquire professional knowledge and practical experience in the fields of mechanical engineering, digital manufacturing, and Industry 4.0,
- collaborate with researchers and academic staff of the Faculty of Mechanical Engineering, University of Novo mesto.

Applicants must:

- be enrolled at a higher education institution participating in the above-mentioned CEEPUS network,
- demonstrate a clear academic or research purpose for the mobility.

Students at all study levels (Bachelor's, Master's, and Doctoral) are eligible to apply.

Selected students will receive a CEEPUS scholarship in accordance with the regulations of the Republic of Slovenia. The scholarship is intended to contribute to basic living expenses during the mobility period.

The application must include:

- Curriculum Vitae (CV),
- Motivation Letter,
- Certificate of Enrolment,
- Transcript of Records,
- A brief description of the planned study or research activities.

Applicants should submit their application through the CEEPUS online system and notify the International Office of the University of Novo mesto at international.office@uni-nm.si.

For additional information regarding mobility opportunities and research activities at the Faculty of Mechanical Engineering, University of Novo mesto, please contact international.office@uni-nm.si.

Yours faithfully,

Doc. dr. Elvis Hozdič
Dean UNM FME
